Hello,

we've taken your proposal at attention. I can't tell, or promise you anything since that is decided by the higher-ups.

Thank you for the suggestion though.

All the best, Mateo.

All the best, Mateo.

Hello Mateo
I would like to make a proposal. I'm not the only one who wants to extend the operation of Zipato V2.
The goal is to keep the Zipato V2 server as it is without adding any new features.
I'm willing to pay up to 150 euros per year to maintain the Zipato V2 server.
Assuming that there are about a hundred people in Europe who want to keep this version, it would cost you 15000 € per year for you.

It's impossible for me to upgrade to Zipato V3 because I don't have the computer skills.
The option to pay in annual credit (coupon) would be a good idea.What do you think?

Have a nice day.
Luc Edel
