

1)

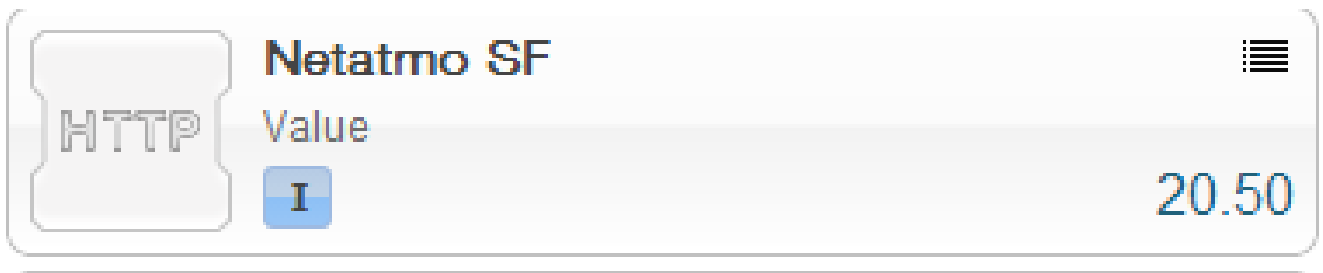

A widget titled "Netatmo SF" with a menu icon in the top right. On the left is a grey button labeled "HTTP". Below the title, the text "Temp\_Ext" is displayed above a blue square button with a white "I". To the right, the value "20.80" is shown in a large font.

2)

A logic brick configuration on a green background. It starts with a "quand" trigger, followed by a "Netatmo SF" widget. A dropdown menu is open, showing "Value" selected. To the right of the dropdown is a comparison operator "<" and a numeric value "90".

3)

A widget titled "Netatmo SF" with a menu icon in the top right. On the left is a grey button labeled "HTTP". Below the title, the text "Value" is displayed above a blue square button with a white "I". To the right, the value "20.50" is shown in a large font.
