FTP Password: OaCavmRxbkhNYHBI
FTP folder: alarm

Streaming Mjpeg e snapshot is ok

The screenshot shows a web interface for a Network Camera. On the left is a navigation menu with categories like 'Device basic information', 'Alarm Service Settings', 'Network configuration', 'PTZ configuration', and 'User&device manage'. The main content area is titled 'FTP Service Settings' and contains a table with the following fields:

FTP Service Settings	
FTP Server	<input type="text" value="my.zipato.com/alarm"/>
FTP Port	<input type="text" value="21"/>
FTP User	<input type="text" value="nmvxjDJJAtfoOZic"/>
FTP Password	<input type="password" value="....."/>
Upload Quantity	<input type="text" value="5"/> Empty or 0 means do not upload pictures(0-3600)
<input type="button" value="Test"/> Please set at first, and then test.	
<input type="button" value="Submit"/> <input type="button" value="Refresh"/>	

Nothing happen with this values
